The Evolution of Modern Human Behavior

(A research project of the state of Baden-Württemberg and the University of Tübingen)

The Department of Early Prehistory and Quaternary Ecology of the University of Tübingen is offering three Ph.D. fellowships for up to 3 years for research on the cultural evolution of late archaic and early modern humans. Applications for research on the archaeology of Swabian Jura are welcome, as are applications for the study of relevant topics from across the Old World.

The fellowships are for 1365 €/month and ideally begin October 1, 2018. The initial closing date for applications is August 1, 2018, but materials received after this date will be considered, if fellowships are still available.

Applications should have strong academic records and should typically be under 30 years of age. Questions may be directed to the address below.

Applicants should submit CVs and short proposals for dissertation research (maximum 5 pages) to:
